UNISEX ELITE JERSEY

CJ16U_SS.SP.FF_M09

Pro race jersey utilizing advanced lightweight fabric in an articulated and compressive fit with, added sleeve length and streamlined collar

- Incredibly lightweight fabric holds its shape with stretch mobility and fabric recovery
- Seamless gripper reduces bulk and provides a smooth aerodynamic finish
- Designed to fit tighter than next to skin to provide a wrinkle free aero fit
- Minimal seam construction on shoulder and arms to reduce wind drag at critical airflow contact point

- Streamlined collar design reduces air gaps
- Traditional three rear pockets for carrying race essentials
- 2XS-2XL sizes to accommodate all rider sizes

FABRIC: FULL MOON, 86% POLYESTER 14% SPANDEX

FABRIC METRICS: 3.23 OZ/YD2 110 GSM

FIT: PRO FIT

SIZES: 2XS-2XL

BREATHABLE FABRIC

MEN'S ELITE BIB SHORT

CS68M_BA.XM_M10

Pro race bibs with multi fabric construction, minimal seam lines to reduce drag and increase comfort, with sleek and contoured chamois.

- Chassis fabric is durable stretch woven Squal, that maximizes moisture transfer and minimizes weight
- Ultra Aero fabric on the outer thighs for maximum aero efficiency
- Seamless gripper reduces bulk and provides a smooth aerodynamic finish

- Formula FXE 3D chamois provides contoured and streamlined comfort
- Fully sublimated bib straps to complete design with jersey matching capability
- Bonded radio pocket for secure storage

FABRIC: SQUAL, ULTRA AERO S, FULL MOON 61% NYLON 39% SPANDEX

FABRIC METRICS: 4.65 OZ/YD2 158 GSM

LIVE ART DIRECT

SUGOI CUSTOM

Book a Live Art Direct consultation with one of our in-house graphic artists to bring your design to life. Engage in a creative and interactive video conference with an art expert as you dream, design and create your one of a kind kit. Make design changes in real time. What once took weeks, now takes mere hours. Take out the middle man and work directly with an artist.

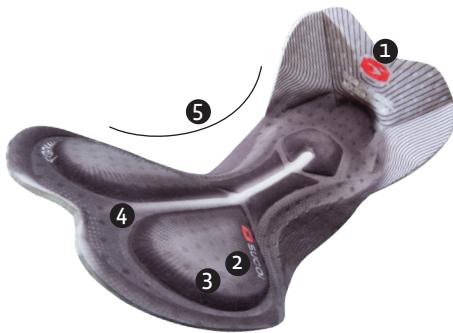

THE SUGOI DIFFERENCE

CHAMOIS DESIGN

The interface between the bike and rider is vital. At the core of every custom kit is our patented chamois technology. Our commitment to producing the industries' leading collection of performance chamois provides the winning comfort advantage.

FORMULA FXE

Streamlined, strategically placed padding and shape, for aggressive high intensity rides.

FORMULA FX

Designed to provide maximum support and comfort during long rides in the saddle.

WOMEN'S SPECIFIC

① Cradle pouch reduces restriction and pressure

② 11mm high density foam in strategic placement

③ 4mm Poron® foam layer under sit bones for maximum vibration damping

④ Molded center channel for pressure relief

⑤ 3D shape ergonomic fit

① Cradle pouch reduces restriction and pressure

② 12mm high density foam throughout chamois

③ 4mm Poron® foam layer under sit bones for maximum vibration damping

④ Molded center channel for pressure relief

⑤ 3D shape ergonomic fit

⑥ Seamless top surface for reduced chaffing

RC PRO

Designed to provide support and comfort, while reducing chaffing and pressure for everyday cycling enthusiasts.

WOMEN'S SPECIFIC

- ① Cradle pouch reduces restriction and pressure
- ② 15mm high density foam pad construction throughout chamois
- ③ 3D shape ergonomic fit
- ④ Seamless top surface for reduced chafing

TRILITE 3

The Tri Lite 3 Chamois provides advanced light weight, quick drying comfort for multisport athletes.

WOMEN'S SPECIFIC

- ① Micro-ventilation in critical areas
- ② Quickdry 'next to skin' brushed synthetic
- ③ Seamless top surface for reduced chafing
- ④ 4-way stretch side panels mold to body contours
- ⑤ Open cell foam for quick drying infused with Silver Ions for antimicrobial effect

QUICK DESIGN

OPTIONAL FEATURES

A convenient and fast way to customize your team kits with our pre-designed art templates. Simply choose a design, select your colours and add your logos.

COLOUR POP

CHAIN GANG

DIGI CAMO

FUSION

MAZE

PARALLEL

RAGLAN CAMO

STREAMLINE

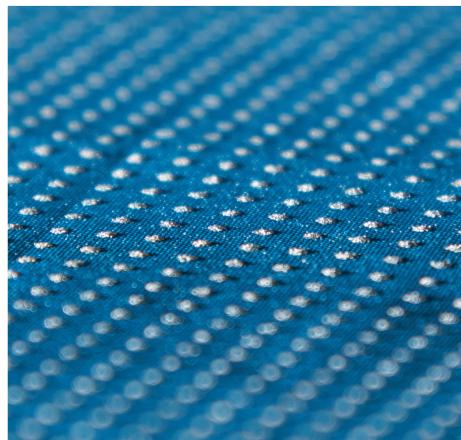

Ask your customer service rep for a complete gallery of Quick Design options to choose from.

REFLECTIVE VISIBILITY

OPTIONAL FEATURES

Our patented Zap technology will keep you safely training longer. The top layer fabric treatment provides explosive light reflection.

- Reflective back pockets on tops (except vests)
- Reflective leg grippers on Evolution, RS Pro and RS Team bottoms
- Reflective features are subtle during the day, to allow your kit design to take centre stage

Zap technology is the process of micro-glass lenses screened to high performance fabrics, providing explosive light reflection.

DAY

NIGHT

A fully reflective Zap fabric is used for high visibility in low light conditions.

DISTANCE AND OBSERVATION ANGLE

Garments utilizing Zap Technology are designed to be visible within a critical detection distance of 140 meters (Based on vehicle traveling 50mph/80 kph).

Zap garments exceed the High Visibility Clothing Certificate Standard.

140 meters

CRITICAL DETECTION DISTANCE

PERSONALIZATION

OPTIONAL FEATURES

Personalize each kit on your team with individual's names.

FLOURESCENT INKS

OPTIONAL FEATURES

Stand out from the pack with these colour options.

ONLINE TEAM STORE ORDERS

FIT PHILOSOPHY

Fit is critical to the performance of a garment. Sugoi offers three fit categories to complement a wide range of performance capabilities and body types.

PRO FIT

PRO FIT

Garments with a PRO FIT designation are form fitted to the body for optimal performance and aerodynamic advantage. These garments are ideally suited for those with lean athletic builds.

SEMI FIT

SEMI FIT

Garments with a SEMI FIT designation are designed to provide performance advantage, but cut slightly more generous throughout the torso for added comfort. Suitable for a wide range of body types and offered in our most popular styles.

RELAXED FIT

RELAXED FIT

Garments with a RELAXED FIT designation are designed to be looser on your body, similar to how a T-Shirt would fit. These garments provide ample room for those seeking looser technical apparel and post-workout wear.

SIZING GUIDE

Note: all measurements are of the body, not the apparel
